KOLOUR DYE

SK ACID STAINS

Exterior Kolour Dye™ is a translucent, UV stable dye, formulated using color designed to penetrate exterior and interior cementitious surfaces. Exterior Kolour Dye™ creates a unique, multi-colored translucent color scheme that unlike paints, will not crack, chip, or peel. Exterior Kolour Dye™ is available in 28 standard colors but can be combined to create an unlimited color palate that creates a similar mottled or marbled effect, when used properly. Create the look of a beautiful, custom acid stained floor in about 1/3 of the time.

- EASY TO USE LIQUID FORMULATION
- COMPLETELY UV STABLE FOR EXTERIOR USE
- MOST VERSATILE DYE AVAILABLE
- 600-800 SQUARE FEET PER GALLON
- THE LOOK OF ACID STAIN IN ONE DAY*
- DRIES IN AS LITTLE AS ONE MINUTE
- EXCELLANT PENETRATION ABILITIES
- 28 VIBRANT AND NEUTRAL COLOR CHOICES

ALSO AVAILABLE IN POLISHING/POWDER VERSION

Interior Kolour Dye™ is a translucent dye, formulated using very fine particles of color designed to penetrate and color interior cementitious surfaces, including polished concrete. Interior Kolour Dye™ creates a unique, multi-colored translucent color scheme that unlike paints, will not crack, chip, or peel. Interior Kolour Dye™ is available in 20 standard colors but can be combined to create an unlimited color palate that creates a similar mottling or marbled effect, when used properly. Create the look of a beautiful, custom acid stained floor in about 1/3 of the time. Interior Kolour Dye™ is highly recommended for use in interior commercial and residential polishing applications.

SurfKcoat Concentrated Concrete Floor Stains are a group of organic colored acid concrete stains. The final brilliant results are unmatched by any other process and leave an antique patina type finish. They react chemically with the mineral content and excess lime of the concrete surface for a deep penetrating permanent stain. All of these stains are UV stable when sealed. Use interior or exterior (Please refer to precautions and limitations on the technical data sheet). SurfKcoat Concentrated Concrete Floor Stains may be diluted up to 1:1 with water.

- HIGHLY CONCENTRATED 2X FORMULATION
- PROVIDES PERMANENT PATINA LIKE FINISH
- 10 ORGANIC EARTHTONE COLORS AVAILABLE

ACRYLPACK-S

AQUA KOLOURS

Acrylpack-S is a high solids, concentrated, solvent based acrylic tint system specially formulated for solvent based acrylic sealers. Acrylpack-S is formulated with high quality, ultra fine particle pigments that easily disperses in solvent based acrylic sealers. Acrylpack-S is a superior choice to obtain a semi transparent stain or a solid opaque colored finish in most solvent based acrylic sealer systems. 14 Great earthtone color selections including White & Black.

Aqua Kolours are an environmentally friendly, water based decorative concrete stain system. Containing a high bonding strength polymer and a low viscosity, Aqua Kolours penetrate and bond to almost any properly prepared cementitious surface. Aqua Kolours are U.V. stable, providing excellent resistance to sunlight when applied to exterior concrete. When a truly vibrant stain is desired but the harsh smell of acid and acetone based stains and dyes are prohibited, use Aqua Kolours. 18 earthy and vibrant color choices.
